Privacy Policy Highlights

Last updated: August 12th, 2025. You can see past versions of this policy **here** in our privacy center.

We believe you should always know what data we collect from you, how we use it, and that you should have meaningful control over both. We want to empower users to make the best decisions about the information that they share with us. In fact, we made a **short video** for students and children that highlights the most important details in our Privacy Policy that they should know about. We offer a **Student Data Privacy Addendum**, an agreement we enter into with schools or districts that further describes our duties, responsibilities, and commitments with respect to **Student Data** that we collect or receive.

What are ClassDojo's commitments to providing transparency and rights?

What communications will I receive from ClassDojo?

Third Party Authentication Services

Third Party Services

Is ClassDojo a controller?

What if I'm not in the U.S.?

EU-U.S. Data Privacy Framework, Swiss-U.S. Data Privacy Framework, and UK extension to DPF

Canada Data Privacy

You should read this policy in **full**, but here are a few key points:

- **Personal Information We Collect**: Please see **this page** where we detail the **personal information** we collect from each user type, including the sources from which the information was collected, the business purpose for which the information was collected, and the third parties with whom we share or disclose personal information for a business purpose. You can also find more details **below**.

  We also have an **Online Tracking Technologies Policy**.

- **How We Use the Information We Collect**: We use the **personal information** we collect from students (or about students from teachers and parents) to provide and improve (as allowed by law) the Service, for **educational purposes**, security, and safety purposes, or as allowed by law. We will not require children to provide more personal information than is reasonably necessary to participate in the Service. See **here** for more information on our use of information collected from students and children using the Service not connected to a school or classroom ("Outside School Child User"), including for educational and other learning activities at home through certain premium features that may be purchased, (**"**Premium Features"). For additional information regarding our use of information collected from teachers, parents, **School Leaders**, and **Admins**, see **here**.

- **Data Retention**: Retention and deletion of Student Data and education records is at

the direction of the school. We enter into Student Data Protection Addendums with schools or districts that further describe our duties, responsibilities, and commitments with respect to Student Data that we collect or receive. Additionally, we retain student **personal information** only for as long as necessary for fulfilling **educational purposes** and legal obligations, or to provide the Service for which we receive or collect the student personal information. We protect students with our industry-leading Student Data Protection Policy: we automatically delete (or de-identify and aggregate) their **Feedback Points** awarded in school after a year (and delete associated feedback comments after a year), and we delete Students' Accounts if they're **inactive** for more than twelve months. Some content within a student account utilized in school or for **educational purposes** connected to a school or classroom ("Student Account") will be kept after deletion of the account for school legal compliance reasons (e.g., maintenance of "education records" under the **Family Educational Rights and Privacy Act (FERPA)** or **"Student Data"** under state student privacy laws or equivalent laws in international jurisdictions) and will not be deleted until we receive direction from the school. This can include content uploaded by a student, teacher, school leader, or parent.

We store non-student user **personal information**, including content uploaded by Outside School Child Users, for as long as it is necessary to provide products and Service to you and others. For non-student users (as well as Outside School Child Users), personal information

associated with your account will be kept until your account is **deleted** or until we no longer need the information to provide the Service, whichever occurs first. Additionally, some information is deleted or de-identified automatically after a set period of time. For additional information on our retention periods, see here.

- **What Children's Information is Shown Publicly?** No Student's Account, or Outside School Child User's account ("Outside School Child Account"), profile, or **Portfolio** is made available or visible to the general public through ClassDojo. For a list of what logged in student users and Outside School Child User's information can be viewed by other logged-in ClassDojo users, please see our **FAQ**.

- **We Never Sell Personal Information**: We will never **sell** or rent your **personal information** or non-personal information. We will only disclose personal information as set forth in the Privacy Policy, such as with a limited set of **third-party service providers** necessary to provide or develop our Services (such as database hosting) or as required by law, and we will be transparent about who these service providers are.

We will contractually require that these service providers process personal information in accordance with our instructions and consistent with this Privacy Policy. We ensure that these service providers employ reasonable and comprehensive data protection and security protocols. See **here** for more details.

We make clear commitments regarding how we handle **Student Data** in the event of a change to our organization (such as a merger)

where personal information that we have collected from users would be one of the assets transferred or acquired. Applicable with state and federal laws in connection with such a change to our organization, this Privacy Policy will continue to apply to your information, and any acquirer would only be able to handle your personal information as per this Privacy Policy (unless you give consent to a new policy). Please see **here** for more details.

- **We never use student or children's information for behaviorally targeted or third-party advertising**: Information collected from students and Outside School Child Users (including personal information and information collected automatically from areas designed for children to access) is never used or disclosed for **third-party advertising**. We also do not place any third-party advertisements in student or Outside School Child User logged-in areas of the Service. Additionally, personal information collected from students and Outside School Child Users is **never** used for **behaviorally-targeted advertising** to students or Outside School Child Users by us or any third-party. We may present contextually relevant recommendations (which means not using student or Outside School Child User personal information) for educational content for either our own products (e.g., Premium Features) or third-party products and services ourselves that we believe may be of interest to a student (e.g., our co-created content with **Yale University on Mindfulness**, and Heart of a Champion series) or an Outside School Child User.

- **You own your data**: We don't own any content or information you provide or we

receive - you (students, Outside School Child Users, parents, and/or schools) will own your content and information.

- **Security and Privacy by Design and Default**: We use security industry best practices to protect personal information, including using encryption and other security safeguards to protect personal information. We design products with security and privacy in mind from day one. See **here** for more information as well as our **Security Overview** and **Privacy Center**.

- **Transparency and Choice**: We will be transparent about our practices so that you can make meaningful choices about how your **personal information** is used. If we make a material change, we will provide prominent notice by posting a notice on our Service or this website page and/or we will notify you by email (if you have provided an email address to us). See **here** for more information.

- **Right to Access, Correction, and Deletion of Data**: We support access to, correction, and deletion of children's personal information by the student or their parent or legal guardian, either by 1) assisting the school in meeting its requirements for access, correction, and deletion or by responding to requests we receive from schools, or 2) directly responding to requests from parents or legal guardians when the information is collected from an Outside School Child User, and ClassDojo obtains the consent directly from the parent or legal guardian. Where we are directly responding to requests from parents or legal guardians, the school would not be acting as the agent of the parent - such as when the parent is using our Premium Features or

uses ClassDojo not connected to a school.

Teachers, parents, School Leaders, Admins, and other users can contact us **here** once you are signed in to your account to access, correct, or update their personal information, or they can use the features in their account settings to do so. See **here** for more information on all user's rights, including about any additional rights you may have depending on the jurisdiction you reside in.
